

Hartjes Nordic Boots

Austrian-made Pilot and Profil racing & touring boots

Power Flex Outer Shell: Lateral stiffness and forward flex deliver optimal energy flow to skis and skates.

Adjustable Heel Strap gives a perfect fit for both wide and narrow heels. 15 mm (0.6") heel lift.

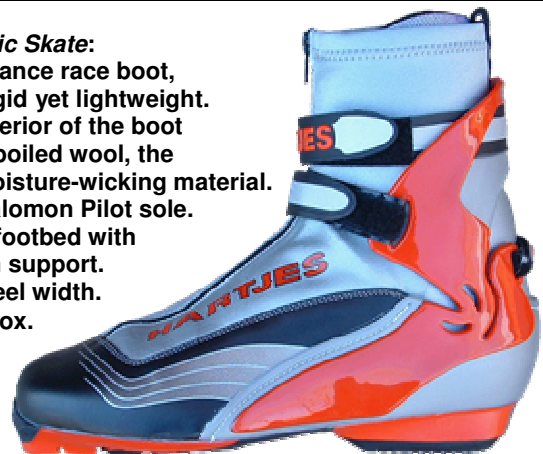

Wide toe box fits a wider range of feet than Salomon.

Extra-tall water-resistant lace cover.

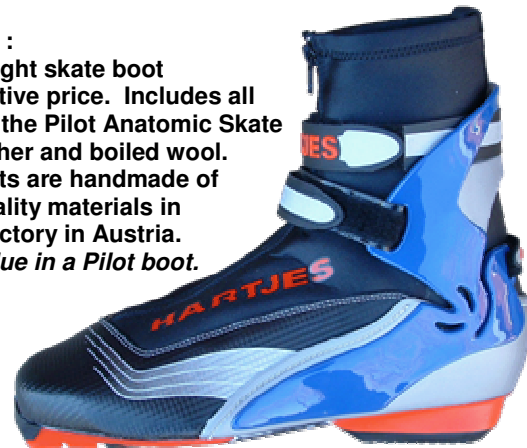

Natural Cork Footbed supports your arch and molds to the shape of your foot. A Hartjes exclusive.

Naturally moisture-wicking boiled wool lining and leather toe box surround your feet for optimal temperature balance (Pilot Anatomic Skate and Racing Classic models only).

Pilot Anatomic Skate:
High performance race boot, torsionally rigid yet lightweight. The entire interior of the boot is lined with boiled wool, the all-natural moisture-wicking material. Two-piece Salomon Pilot sole. Unique cork footbed with superior arch support. Adjustable heel width. Leather toe box.

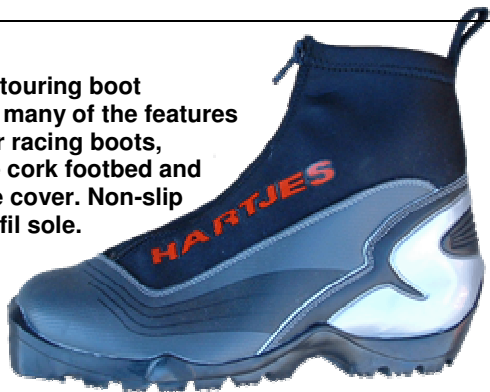

Pilot Pro Skate :
A stiff, lightweight skate boot at a very attractive price. Includes all the features of the Pilot Anatomic Skate except the leather and boiled wool. All Hartjes boots are handmade of the highest quality materials in Hartjes' own factory in Austria. *Unbeatable value in a Pilot boot.*

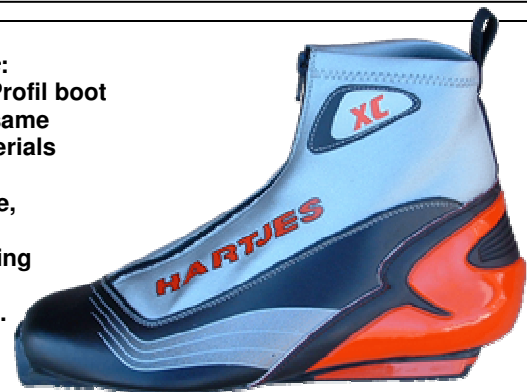

Vario Tech Combi:
Ideal combination of price, performance and versatility for XC skate and classic skiing, plus Nordic skating, rollerskiing and rollerblading on Nordic Inlines. This boot matches up the lateral stiffness and ankle support of a Pilot skate boot with the flexible sole of a classic touring boot. Includes cork footbed and adjustable heel width.

Nagano:
Hartjes' elite touring boot incorporates many of the features found in their racing boots, including the cork footbed and zippered lace cover. Non-slip Salomon Profil sole.

Racing Classic:
A lightweight Profil boot crafted of the same all-natural materials as the Pilot Anatomic Skate, including a boiled wool lining and leather toe box.
